Environmentally friendly
energy with extra long tab.

Innovative hearing aid batteries that satisfy all customer requirements

For a long time, Duracell Activair has been the premium choice for audiologists because it stands for highly efficient operation and best sales in the hearing aid market.

The hearing aid batteries meet all requirements of modern hearing aids that have high energy requirements for additional functions and the utilization of wireless technology.

Environmentally compatible batteries for more customer satisfaction

By combining long lifespan, constant quality, reliability and revolutionary user-friendliness, you can take optimum advantage of the growing hearing aid market with Duracell Activair hearing aid batteries.

Best user-friendliness

The extra long EasyTab® enhances the handling of small batteries. Thanks to the color-coded tags, your customers can easily recognize battery size.

The Duracell Activair product range

Suitable for all types of standard hearing aids, for high-power as well as for digital and analogue models.

More Duracell Activair advantages

- Powerful worldwide brand image as a competitive advantage.
- Made in Germany – the Duracell Activair batteries provide a high and stable voltage level for long-term hearing.
- Extensive product tests and technical support guarantee high reliability.
- The stainless steel battery housing prevents corrosion – the triple seal and PTFE film allows maximum power even under extreme conditions.
- Unique, protective packaging for optimal protection and easy battery storage.

 EasyTab® 10

 EasyTab® 13

 EasyTab® 312

 EasyTab® 675

Thanks to Easy Tab®, changing batteries has never been easier!

Easy to handle and easy to open.

Easy to take out and easy to hold.

The unique, extra long tab allows easy insertion.

POS materials

The high quality, attractive POS materials such as the Duracell Activair Plexiglas display with 4 hooks, for example, ensure fast sales.

You benefit from our market experience

The demands that our customers make of hearing aid batteries are very important to us. For this reason, customer suggestions are incorporated into our product development — because only in this way, we can be sure that our innovations will satisfy market and customer needs.

**Duracell Activair products are available only from audiologists.
Duracell Activair stands for strong customer loyalty.**
